
1. homophilic cell adhesion via plasma membrane adhesion molecu...
2. neuropeptide signaling pathway
3. cilium movement
4. sensory perception of mechanical stimulus
5. second-messenger-mediated signaling
6. inner ear development
7. adult behavior
8. regulation of postsynaptic membrane potential
9. ear development
10. positive regulation of monoatomic ion transport
11. potassium ion transport
12. negative regulation of synaptic transmission
13. cilium organization
14. inner ear morphogenesis
15. central nervous system neuron differentiation
16. regulation of monoatomic ion transmembrane transport
17. glutamate receptor signaling pathway
18. detection of abiotic stimulus
19. regulation of cytosolic calcium ion concentration
20. mating
