

1. cilium organization
2. homophilic cell adhesion via plasma membrane adhesion molecu...
3. ear development
4. inner ear development
5. central nervous system neuron differentiation
6. neuron fate commitment
7. ear morphogenesis
8. cilium-dependent cell motility
9. axonemal dynein complex assembly
10. sensory perception of sound

11. extracellular transport
12. regulation of axon guidance
13. action potential
14. negative regulation of neurogenesis
15. axon extension
16. formation of primary germ layer
17. potassium ion transmembrane transport
18. response to auditory stimulus
19. axon midline choice point recognition
20. mating
