

1. preribosome
2. spliceosomal complex
3. catalytic step 2 spliceosome
4. mitochondrial protein-containing complex
5. precatalytic spliceosome
6. ribosomal subunit
7. nuclear speck
8. chromosomal region
9. mitochondrial matrix
10. cytosolic ribosome

11. mitochondrial inner membrane
12. kinetochore
13. Sm-like protein family complex
14. condensed chromosome
15. proteasome complex
16. mitochondrial ribosome
17. DNA-directed RNA polymerase complex
18. focal adhesion
19. proteasome accessory complex
20. nuclear pore
