

1. homophilic cell adhesion via plasma membrane adhesion molecu...
2. axoneme assembly
3. cilium movement
4. inner ear development
5. cilium organization
6. ear development
7. regulation of membrane potential
8. sensory perception of mechanical stimulus
9. neuropeptide signaling pathway
10. positive regulation of monoatomic ion transport

11. forebrain development
12. regulation of cytosolic calcium ion concentration
13. inner ear morphogenesis
14. adult behavior
15. spinal cord development
16. feeding behavior
17. negative regulation of synaptic transmission
18. central nervous system neuron differentiation
19. chemical synaptic transmission, postsynaptic
20. ear morphogenesis
