

1. cilium organization
2. cilium movement
3. regulation of membrane potential
4. homophilic cell adhesion via plasma membrane adhesion molecu...
5. neuropeptide signaling pathway
6. ear development
7. adult behavior
8. forebrain development
9. cilium-dependent cell motility
10. sensory perception of mechanical stimulus

11. potassium ion transport
12. positive regulation of monoatomic ion transport
13. central nervous system neuron differentiation
14. axonemal dynein complex assembly
15. negative regulation of synaptic transmission
16. ear morphogenesis
17. response to amine
18. regulation of behavior
19. detection of abiotic stimulus
20. regulation of cytosolic calcium ion concentration
