

- | | |
|---|---|
| 1. gated channel activity | 11. NAD+ ADP-ribosyltransferase activity |
| 2. monoatomic cation channel activity | 12. heparin binding |
| 3. neuropeptide receptor activity | 13. NAD+ binding |
| 4. neurotransmitter receptor activity | 14. thromboxane-A synthase activity |
| 5. cytoskeletal motor activity | 15. ammonium ion binding |
| 6. potassium ion transmembrane transporter activity | 16. alkane 1-monooxygenase activity |
| 7. peptide binding | 17. oxygen binding |
| 8. neurotransmitter binding | 18. serotonin binding |
| 9. tubulin binding | 19. caffeine oxidase activity |
| 10. calcium-dependent phospholipid binding | 20. all-trans retinoic acid 18-hydroxylase activity |
