

- | | |
|---|---|
| 1. gated channel activity | 9. serotonin binding |
| 2. tubulin binding | 10. thromboxane-A synthase activity |
| 3. neurotransmitter receptor activity | 11. estrogen 2-hydroxylase activity |
| 4. cytoskeletal motor activity | 12. all-trans retinoic acid 18-hydroxylase activity |
| 5. potassium ion transmembrane transporter activity | 13. retinoic acid 4-hydroxylase activity |
| 6. neurotransmitter binding | 14. calcium-dependent phospholipid binding |
| 7. peptide hormone binding | 15. cAMP binding |
| 8. heparin binding | 16. nucleoside diphosphate kinase activity |
