

- | | |
|---|---|
| 1. monoatomic cation channel activity | 8. neurotransmitter binding |
| 2. tubulin binding | 9. peptide binding |
| 3. cytoskeletal motor activity | 10. collagen binding |
| 4. potassium ion transmembrane transporter activity | 11. exopeptidase activity |
| 5. ligand-gated monoatomic cation channel activity | 12. NAD+ ADP-ribosyltransferase activity |
| 6. calcium-dependent phospholipid binding | 13. DNA-binding transcription repressor activity, RNA polymerase... |
| 7. neurotransmitter receptor activity involved in regulation of.. | 14. heparin binding |
