

1. homophilic cell adhesion via plasma membrane adhesion molecu...
2. cilium movement
3. ear development
4. inner ear development
5. cilium organization
6. microtubule bundle formation
7. regulation of membrane potential
8. sensory perception of sound
9. forebrain development
10. spinal cord development

11. central nervous system neuron differentiation
12. ear morphogenesis
13. inner ear morphogenesis
14. action potential
15. cilium-dependent cell motility
16. potassium ion transport
17. negative regulation of synaptic transmission
18. feeding behavior
19. ureteric bud development
20. mating
