

- 1. homophilic cell adhesion via plasma membrane adhesion molecu... 11. central nervous system neuron differentiation
- 2. cilium movement
- 3. ear development
- 4. inner ear development

5. cilium organization

- 6. microtubule bundle formation
- 7. regulation of membrane potential
- 8. sensory perception of sound
- 9. forebrain development 10. spinal cord development

- 18. feeding behavior 19. ureteric bud development
- 20. mating

12. ear morphogenesis

14. action potential

13. inner ear morphogenesis

16. potassium ion transport

15. cilium-dependent cell motility

17. negative regulation of synaptic transmission
