

- 1. axoneme
- 2. ciliary plasm
- 3. motile cilium
- 4. monoatomic ion channel complex
- 5. synaptic membrane
- 6. microtubule associated complex
- 7. transmembrane transporter complex
- 8. neuron projection membrane
- 9. cell projection membrane
- 10. axonemal dynein complex

- 11. microtubule
- 12. receptor complex
- 13. neurotransmitter receptor complex
- 14. potassium channel complex
- 15. perikaryon
- 16. non-motile cilium
- 17. actin-based cell projection
- 18. septate junction
- 19. postsynaptic specialization membrane
- 20. neuron projection terminus
